2027**

IEEE

Student Branch
NIT Raipur

IEEE
MADHYA PRADESH SECTION

2027 IEEE International Conference on

Power, Control and Computing Technologies (ICPC2T 2027)

NIT Raipur, Chhattisgarh, India | 3–5 March 2027

SPECIAL SESSION (SS3) ON

AI Data Centers: Power, Computing and Intelligent Energy Management

LIST OF TOPICS

- AIDC power-system planning, design, and reliability
- Renewable-energy supply and photovoltaic forecasting for AIDCs
- Computing-power and electricity-demand co-optimization
- Cooling systems, thermal management, and waste-heat recovery
- Real-time energy management and optimal dispatch
- AI, digital twins, and physics-informed methods for AIDCs
- Power-aware AI workload placement and scheduling
- Battery energy storage, UPS, and backup-power coordination
- Demand response and flexible data-center operation
- Multi-energy systems for data-center campuses
- Distributed, robust, stochastic, and mixed-integer optimization
- Carbon-aware computing, low-carbon operation, and sustainability

ORGANIZING CHAIRS

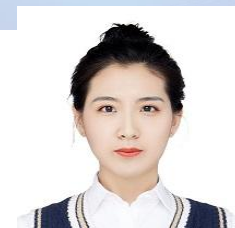

Dr. Junyan Shao
Peking University

Dr. Wenting Wang
Peking University

Dr. Yiping Yuan MJP
University of Electronic Science
and Technology of China

Dr. Yujia Huang
Shenyang University of
Technology
