

2027 IEEE International Conference on Power, Control and Computing Technologies (ICPC2T 2027)

NIT Raipur, Chhattisgarh, India | 3–5 March 2027

National Institute of Technology Raipur — An Institute of National Importance

SPECIAL SESSION ON

Resilient Cyber-Physical Distribution Networks: Anomaly Detection, Demand Response, and Electric Vehicle Integration

LIST OF TOPICS

1. AI, Machine Learning, and Deep Learning for Anomaly Detection in Power Distribution Networks
2. Cyber-Physical System Modelling, Monitoring, and Resilient Control
3. Cybersecurity, Intrusion Detection, and Secure Communication for Smart Grids
4. Resilient Operation and Self-Healing Strategies for Distribution Networks
5. Demand Response and Demand-Side Management for Grid Flexibility
6. Electric Vehicle Integration, Smart Charging, and Vehicle-to-Grid (V2G) Technologies
7. Distributed Energy Resources (DERs), Renewable Energy Integration, and Microgrids
8. Digital Twins, Edge Computing, IoT, and Data Analytics for Intelligent Grid Operation
9. Optimization, Forecasting, and Decision Support for Smart Distribution Systems

ORGANIZING CHAIRS

		
Dr. Bishwajit Dey	Dr. Pulakraj Aryan	Dr. Manoj Debnath
Manipal University Jaipur	Manipal University Jaipur	Siksha 'O' Anusandhan, Bhubaneswar
bishwajit.dey@jaipur.manipal.edu	pulakraj.aryan@jaipur.manipal.edu	manojdebnath@soa.ac.in

SUBMISSION DETAILS

Submit here

<https://cmt3.research.microsoft.com/User/Login?ReturnUrl=%2FICPCCT2027%2F>

After login, select Special Session (SS-05): “Resilient Cyber-Physical Distribution Networks: Anomaly Detection, Demand Response, and Electric Vehicle Integration”
